FOR ALL YOUR HARD  
WORK!!!**

## NEW SMOKE ALARM REGULATIONS

**It will be law for all residential properties to have mains powered smoke alarms installed from 1 October 2009. In dwellings where the construction of the building does not permit a space to conceal the wiring or where no mains power is available, smoke alarms with a 10 year battery life are permitted.**

**Under *Building Regulations Amendment 2009* an electrical contractor must install mains powered smoke alarms before a property is sold or a new rental lease agreement has been signed.**

**Rental properties have until 1 October 2011 to comply with the new regulations.**

**The *Building Regulations Amendment 2009* specifies where smoke alarms should be installed.**

**IF YOU WOULD LIKE A FACT SHEET ON THESE NEW REGULATIONS, PLEASE EMAIL ME.**
